Advanced Excel For Professionals

28 - 30 May 2025

Thailand, Bkk

Microsoft Excel is an excellent business tool because it has numerous functions and formulas to store, evaluate, and modify data effectively. Our course offers in-depth knowledge of Excel's various tips, tricks, formulas, functions, and shortcuts. The course is designed for participants who are already using Excel and need to enhance their professional financial analysis and financial modeling skills. Furthermore, participants of this course will learn to work without a mouse and use keyboard shortcuts to improve and enhance their spreadsheet designing abilities drastically. By enrolling in this course, you will stand out in an interview or move up the ladder in your career with excellent Microsoft Excel skills.

Overview

The course will provide a detailed explanation of the basic concepts and swiftly moves to an advanced level to teach new concepts even to Excel pros. The course is designed to ensure that complex ideas are delivered to participants, thereby supporting them in building a solid base needed to create advanced Excel spreadsheets. The course also offers a deep insight into Excel's various functions and complicated formulas, thereby delivering a better understanding of financial analysis and modeling. In addition, the course also covers finance-specific formulas that are important in performing financial analysis.

Who should attend

All individuals who want to improve their advanced excel skills should attend this course

- Middle to senior managers from different industries
- All professionals who want to deal or currently deal with financial modeling in their company
- Consultants, advisors, and other professionals who wish to improve their advanced Excel skills

Methodology

Nontheoretical methodology includes interactive discussions, case studies, interactive games, and assignments to understand the concepts and their applicability.

Trainer

We carefully choose all our trainers with rich and vast experience in the financial sector. The course will be conducted by an experienced training consultant having more than 20 years of industry experience with some of the world's leading financial institutions, specializing in corporate finance, investment banking, and corporate fundraising.
