PROJECT ANALYSIS AND MANAGEMENT

17 - 19 November 2025

Kuala Lumpur

This immersive workshop delivers a strong foundation in project analysis and management, equipping professionals to plan, lead, and close projects successfully. Designed with a practical and structured approach, participants will explore tools, techniques, and governance principles essential for delivering projects on time, within scope, and with measurable impact.

Overview

The course covers the full project lifecycle, from setting clear objectives and building business cases, to managing risk, resources, and stakeholder expectations. Participants will gain hands-on insights into feasibility assessment, planning tools, project control methods, and leadership strategies for execution success.

Upon completion, participants will:

- Understand key project phases, tools, and team responsibilities
- Gain practical skills in planning schedules, budgets, and managing risks
- Learn how to communicate, govern, and close projects effectively.

Who should attend

- Aspiring and mid-level project managers, analysts, and PMO staff
- Team leaders, coordinators, and professionals managing project-based work
- Business stakeholders and decision-makers overseeing project outcomes

Methodology

Delivered using an applied, non-theoretical format that includes case studies, group exercises, project planning simulations, and real-time analysis of project tools and dashboards.

Trainer

Facilitated by a seasoned project advisor with over 25 years of international experience in project delivery, strategic planning, and stakeholder engagement across public and private sectors. The trainer has coached project teams in Fortune 500 companies and served as a consultant to several government transformation projects.

PROJECT ANALYSIS AND MANAGEMENT

17 - 19 November 2025

Kuala Lumpur
