PORTFOLIO MANAGEMENT

22 - 24 June 2026

Kuala Lumpur

This practical course equips professionals with a structured understanding of portfolio management and governance, helping them align business strategy with investment decisions. Participants will explore roles, frameworks, performance, and value realization within a portfolio context, using real-life case practices to support learning.

Overview

This course introduces modern portfolio governance practices that support better decision-making, alignment of business priorities, and realization of strategic value. Participants will gain a hands-on understanding of how portfolios are structured, governed, and optimized for results.

Upon completion, participants will:

- Understand key roles and responsibilities in portfolio governance
- Learn how to design, structure, and prioritize portfolio components
- Gain skills to track benefits, manage performance, risks, and stakeholder engagement.

Who should attend

- Senior managers, portfolio and program leads, PMO heads
- Strategic planners, business analysts, investment committee members
- Any professional involved in enterprise governance and project prioritization

Methodology

The course adopts an engaging and practical approach, using interactive case studies, real-world scenarios, team discussions, and tools to apply key concepts in portfolio management.

Trainer

The workshop will be led by a senior portfolio strategist with over 30 years of experience in governance, strategy, and large-scale portfolio optimization across sectors. Formerly part of global strategy teams and an advisor to multinational boards.
